

Good afternoon!

COVID-19 (CDC, federal, state and Raw & Focus Photography regulations)

1. **We offer online ordering.** Parents can pre order online to prevent contact and for less ordering errors. Items can be mailed to League or parents.
2. **Individual photos.** We ask for one coach to show the players where to stand (while keeping masks on).
3. **Team photos.** The league will need to decide prior to photo day the following:
  - Will masks be mandatory for all in team photo (recommended) or do you prefer no masks.
  - Another option is for everyone to leave their helmets on.

(NOTE: Because coaches have to help us get the individuals and teams posed, we may need extra time per team on the schedule)

ON PHOTO DAY:

5. **Masks must be worn by everyone present** (except while photos are being taken). We are requiring leagues to have a "league ambassador" present at all times to help enforce this safety rule.
6. **Photographers must remain 6' from all players/teams.** Coaches will need to help the photographer with:
  - Individuals - One coach will show the player where to stand (while keeping masks on). Player gets set for individual photos, takes mask off, 3 photos taken, mask back on and goes to the end of line. Repeat until all who want individuals taken are done
  - Team photo - Coaches will show players where to stand (with masks on) with our photographer's verbal guidance. Once ready the photographer will ask everyone to remove masks (if the league opts for this), take 2-4 team photos, instruct everyone to put their masks back on and have them exit the area.
7. **Teams only beyond this point.** Only coaches and players will be allowed in the photo area. Kids should come prepared. *If a parent* need forms we will have paper forms available. It is best to order online for less contact.
8. **No props.** We will not be providing any props this season. If a player wants a prop in their individual photo, they will need to bring their personal prop. We recommend no props for the team photo but if the league prefers them in the photo then we would use sanitized league props.

We are open to discuss any additional or special requests that you may have.

Raw & Focus Photography is here and excited to photograph your league!
